Comments:

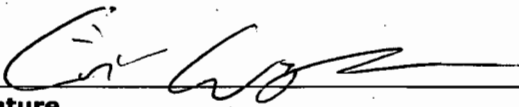

We need an Environmental Impact Statement because:

The embankment should be preserved in order that the right of way on which it sits to be used for transportation purposes. The conversion of the structure to housing would eliminate its use as a key transport facility. Jersey City is highly densely populated, and such density is increasing, and thus addition of housing on the embankment site would be counterproductive for the community's health.

* REQUIRED FIELDS

I authorize the Embankment Preservation Coalition to file this comment with the Surface Transportation Board.
