

Dear Sirs

I am writing to you to express my concerns about the sale of the E, J, + E railway (Elgin, Joliet + Eastern railway).

Please, Please DO NOT allow the sale to go through it will make train traffic so congested which in turn makes traveling by car even more congested. Traffic in our area is so bad at certain times of the day, it is unbelievable. You can't even get from point A to point B without it taking shy of 1 hour and the 2 points are only 3 miles apart.

So when 23 times more of train traffic at ground level starts coming thru towns, I can't imagine how anybody will be able to around - let alone Emergency vehicles - what happens to the motorists

that they are trying to get to, or to the patients that are in the ambulance and trying to get to the hospital - what if it's a life and death situation?

What if it was one of your relatives in that ambulance or the fire truck trying to get to your burning house - what are they suppose to do or how are they suppose to get there?

With all the additional car traffic in all of these areas from the trains it will be like rush hour traffic all the time.

And with the gas prices that they are people won't be able to go or get any where and again the economy will suffer - you know the trickle down effect

Sir I understand I am 1 voice but I am begging you to PLEASE Do NOT allow the sale to go thru. Our towns in Will County are counting on

you to do the right thing, so
again please do not approve
the sale.

Thank You

Kimberly Albert
