Transcript:

I am leaving this message regarding the Bill HR6707. This is regarding the purchase of the railroad and I am truly morally opposed to approval of this purchase, due to the fact that I have a child on the school bus and it just not make sense to have more trains on the railroad line when the area is so heavily populated with schools and school buses. So, I am asking that the railroad purchase be denied. I am referencing to pass the HR 6707. So that is what I am requesting.
