 Message:

I have many very strong reasons against CN Railway. This will literally suck the life and money out of each and every man, woman and child in our community. I was born and raised in this town. My husband and I live on the North side of town. We also run a small business on the north side of town, that has been in this community for 50 yrs. Our children are raising families South of the proposed CN Railway. We also have Elderly parents to the south. Not to mention the many friends and customers. I would say about 35% of our town (and Growing). It worries us that the new Silver Cross hospital may very well be cut off from them. When every second could mean life or death. The High schools are also on the North side of the rail. It makes us sick to think of the horrible results of a Teen late for school and a freight train that could cut them off. How about the fuel burned just sitting and waiting for a train that is 2 to 3 miles long, without much break between the next run. I object to a company from anywhere coming through here without so much consideration for the communities it disrupts. All for their own PROFITS. Profits that will be leaving this country!!! Get Real People!!!!!! WAKE UP!!!!!! We have been sold out and it is getting very close to where we live. God Help Us.
