Transcript:

I am vehemently against the purchase of the railroad by CN. I don't believe that there is any good that could possibly come out of it. The number of trains that I heard that would go through the area and the length of them would become a major, major health, and in general, a risk because of the failure of the police, fire department, ambulances, etc., being able to get through to people who may need help at any given moment in time. I also don't believe that CN would pay much of anything to correct any problems of that nature (bridges, etc.). I don't feel that I need to pay for anything of that sort either. I don't like the whole idea of what is happening and I hope and trust that it will not. Thank you.
