Doburn, Ma 01801
April 28, 2006

Dear Phillis Johnson-Ball:

As Senior Citizens living in No. Doburn only a short distance from the Olin Plant in Wilmingon, we are very concerned with the proposed plan for having the site turned into a transfer station for trash from many towns. Isn't it enough that the Plant has caused the closing of five pumps in Wilmingon because of contaminated water? We strongly oppose this proposal.

Sincerely,
Barbara Lund
and
Chesley S. Lund
