Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

CN | EJ&E

Environmental Impact Statement

STB Finance Docket No. 35087

Date: 8/27/07

Comments must be submitted by September 30, 2008.

My family has lived at the below address for 21+ years. Our house is located on the corner of Lincoln Avenue and Lageschulte - directly across from the railroad in question. Children, senior citizens, families, and several businesses are directly affected on a daily basis, 24 hours, by the traffic created by this line. To think that the CNR has even proposed the idea to increase its daily traffic on the line(s) is highly unfortunate. The increase in noise, traffic and pollution, as well as the negative impacts on safety, which would not have a single positive outcome for any resident or commuter passing through our town, is reason enough to prevent these proposals for any increase in "train traffic" to occur. We are not the only town who would be dramatically affected by the proposed train traffic. My voice cries out "shame on you" without any embarrassment at all. The safety, quality of life, and economy of well over 40 towns! How dare you. This fails every community the proposed ~~a~~ acquisition would physically pass through. It communities would be cut off from its fire, police, ~~and~~ ambulatory and hospital emergency services. You may be the cause of losses of life. Shame on you.

YOUR INPUT IS IMPORTANT!
