Re: Great Lakes Basin Transportation Proposal

We are writing to express our disapproval of the G.L.B.T. project being considered in our area. Although we are not in the direct path, we feel it will effect us and our home very much.

Grant Park, Ill. has been our home for 53 years. We chose to raise our three children here simply because it was and is a wonderful place. We're not exposed to much of the crowding and crime of the more highly populated areas to our north.

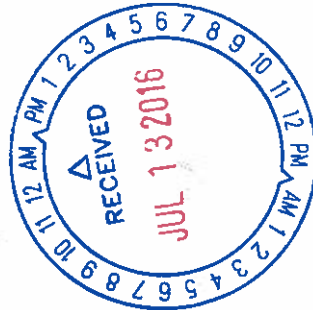

At present two major north and south rail lines and one east and west line runs through our area. The one being proposed would be much larger and useful to no one except those who wish to exploit our neighborhoods.

Please Consider a resounding No!! to this project.
