Re: Railroad Concerns
STB Finance Docket No. 24824

Gentlemen:

I live where the railroad loop may be located.

I am NOT in favor of any quarry of rail route, but if one is built it should be built in the most easterly loop as possible to avoid destruction of the historical assets of our community and the very serious flood plains of Elm Creek.

I have both elderly people and small children in my household and the noise, dirt and traffic issues concern me deeply.

I hope that you will strive to protect the Edwards Aquifer Hills and our quiet little Alsace-Lorraine community when you make your decisions

Thank you,

A handwritten signature in black ink, appearing to read "Ian Swiney". The signature is fluid and cursive, with a large initial "I" and a long, sweeping underline.

Re: Railroad Concerns
STB Finance Docket No. 24824

Gentlemen:

I live where the railroad loop may be located.

I am NOT in favor of any quarry of rail route, but if one is built it should be built in the most easterly loop as possible to avoid destruction of the historical assets of our community and the very serious flood plains of Elm Creek.

I have both elderly people and small children in my household and the noise, dirt and traffic issues concern me deeply.

I hope that you will strive to protect the Edwards Aquifer Hills and our quiet little Alsace-Lorraine community when you make your decisions

Thank you,

Tommy Thawbridge
