Message:

I am writing to voice my concern of CN's acquisition of the EJ&E Railroad. If approved, this acquisition would have an immediate and significant negative impact on the already highly congested roads in my community.

This additional road congestion would obviously have a ripple effect on other things, such as increased delays in emergency response times, as well as elevated noise, vibration and pollution levels as the trains pass through my community and other surrounding communities.

I strongly encourage you to decline approval of this acquisition.

Sincerely,

Tom Markham
Plainfield IL
