

I want to write you about my opposition of the CN railroad acquisition of the EJ&E. I do not feel that the American taxpayers should pay for this type of railroading by a foreign corporation.

I am writing you to tell you of my deep disapproval of what the CN railroads are planning to do with the increase of railroad cars to up to twenty times per day. I have lived in the Hoffman Estates area for over ten years and have children in this school district. I work in the Barrington area and the traffic on Lake Cook road is so terrible now when the high school and two other middle schools are dismissed. I cannot see anymore congestion in that area without having to consider safety issues. The majority of the travelers on that road are our children and moms driving back and forth for sporting events and activities. Please don't put these communities in jeopardy like that. We are also concerned about the noise and pollution from this increase of railroad cars. Please fight for us against the CN railroads plan. The Barrington and Hoffman Estates area supports you and asks you to fight for us about the issue that has our community in an upheaval. I am in support of you!

Thank You Very Much
