Message:

I've learned you're considering allowing greatly increased train traffic through our area. I strongly urge you to reconsider as our vehicular traffic is already so congested & many tracks cross highly traveled roadways. The incidence of increased trains would definitely slow the roads the trains cross, the roads feeding onto those roads & adjacent neighborhoods used as "cut throughs". I fear not only would commute times be worsened but we'd see traffic accidents increased due to the congestion. Please study this closely & reconsider.
