1. Which of the following applies to your situation?

☒ The proposed rail line is near my home. *Route 2 + 3*

☐ The proposed rail line is near my business.

☒ The proposed rail line crosses my property *Route 1*

☐ Other, please specify

2. What are your concerns regarding potential environmental impacts and do you have any mitigation suggestions?

one proposed route comes directly through our property and the other 2 so close it will really make the flooding worse than it is now.

What will happen to the underground water when they start all the blasting

3. Please use this space for additional comments or suggestions.

My husband is what is known as a brittle diabetic and has end stage renal disease. 4516 is cut off we have to go 25 miles out of our way to get him to the hospital at Wilford Hall (Kendall AFB). The last time they took him to the hospital in Hondo the Dr. didn't even check him and we had to go all the way to San Antonio. If we have to sit and wait for a train to pass I don't think we would make it.

Thank you for your comments.
