Subject: CN Railway Company/EJ&E, STB Finance Docket No. 35087

Dear Secretary Quinlan:

My father and uncle were both in the railroad industry, so I understand the need for trains to move efficiently, whether they transport freight or passengers. I support CN Railway's proposed acquisition of a portion of the EJ&E rail outside Chicago. As freight trains and passenger trains often share tracks, and with the heavier rail traffic in Chicago, the purchase would allow CN to reroute some of its freight trains so they can use less congested tracks and transport goods to their destinations more efficiently.

Also, with less congestion on tracks, there would be less possibility of trains idling and unnecessary air pollution from these trains. Moving freight more efficiently in the area helps maintain the quality of our rail system. Please provide your approval for the proposal. Thank you.

Sincerely, *Isabelle Arroyo*
