Transcript:

As a resident of New Lennox, a community that will be negatively impacted with the increased number of trains being proposed with the purchase of the EJ&E railroad by the CN railroad, I would like to express my concerns. I understand the number of daily trains may exceed 30 trains in the future, and that these trains may extend 3 miles in length, causing over 20 minutes delays in crossing. I strongly believe that the proposed CN railroads purchase of EJ&E will drastically and negatively impact emergency response times in New Lennox where I live. I am equally concerned about the increased hazardous materials that will be routinely moving through our community. Please take my concerns into consideration when you make your recommendations and vote no to the CN. Thank you.
