As a result of S. Barrington I strongly object to the proposed acquisition, which will decimate our environmental quality. Increasing train traffic 700-800%, train length and double tracking are all assaults on our community safety and well-being. There will be delays for emergency vehicles, noise pollution, and a massive increase in auto congestion due to the many at-grade crossings in our area.

This is an unjustified expropriation of a public good (our environment) for corporate profit, pure and simple. Our entire entire community rejects this proposed transaction
