I am very much against the CN railroads acquisition to buy the EJ&E railroad. I think with the economic and environmental impact it would have on my community that it would just be devastating to our town. They would be carrying hazardous wastes right next door to our backyards and schools. I have many children and grandchildren that live in the Barrington area. They have lived in the area for over twenty years. We are all very concerned that this will totally bring down the value of the homes. All this congestion and traffic along with the safety issues will not help this community of ours at all. I feel that no one will want to live in Barrington or have a business anymore with all the noise and pollution and traffic caused by these trains. What a great inconvenience and safety concern this community would be burdened with. Please fight against this CN railroad acquisition. The taxpayers should not be forced to pay the bill for this billion dollar annual profit company to fix the grade separation infrastructure to do what it wants with this railroad. Please don't let this foreign corporation do this to our community. Please oppose this acquisition and fight for the town of Barrington

Sincerely,

Frank Uyekawa
