Message: I live about 1/2 block from the railroad tracks. Over the years traffic has increased and so has the noise level. The increase of traffic has made for local travel slow due to trains. For this to increase from an average of 16 trains to an average of 42 trains that will be nearly 2 miles long will wreak havoc on an already congested travel area. That is not even taking into consideration the noise level increase. There are always alternative solutions to problem if you are willing to look elsewhere and consider them. Please do not ignore our concerns. Thank you for your time
