To Whom may Concern:

I live on the east of Aurora and next to the rail system that everyone is talking about. I feel that it would be a greater burden on the family if it is sold as plan. Family would have longer travel time either going another route or waiting to for the increase in traffic on the rails to die down. We are already being hit by gas price, now we have to look forward to spending more time burning the little gas we can afford. More trains means concerns about responding emergency vehicles being able to get to us without going out of the way to help us. Thank you for your time.
