Subject: TRR EIS Comment X-tension Request

Dear Ms. Rutson,

I'm requesting you extend the public comment period on the TRR EIS. June 23rd is too pressing of a time limit for we citizens to be able to respond intelligently to such a long, thorough & complex document. I appreciate your work on this, but there's so much to try & understand, so a comment extension seems quite reasonable in helping us all along with this process.

Thanks so much,
Catherine P. Logan
