

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

I have had personal situations that a family member had to be rushed to the hospital. Gridlock from train traffic would mean the difference between life & death.

Also, as a realtor in the Barrington Area - this will have a huge negative impact on our property values and limit the motivation of people wanting to move into our community. Please listen to what our community is telling you.
