Transcript:

I want to leave comments in opposition to the purchase of the CNN, of the EJ&E Railway. My concerns are most importantly, safety with the speed, the length, the trains, the amount of time it's covering the the tracks, safety of the people in the area, the length of time because of the increase and potential use of the train is our ability to travel to and from with the amount of crossings that the railway currently covers in Frankfort. Also, the flow, the time frame, travel to and from work and also the property value because we live near the railroad tracks. I realize that we did move near a railroad, but also the usage of the tracks when we purchased our home and now it's, the increase is absolutely mind-boggling. So I'd just like to state my opposition to the purchase of the railway by CN.
