Surface Transportation Board  
Docket # FD 3595-2  
395 E Street NW  
Washington, D.C.

Dear Mr. Blodgett,

I am writing to ask you to vote  
"No" on Docket # FD 3595-2, The Great  
Lakes Basin Railroad.

Hauling hazardous materials, its  
not "If", but "When" there's a derailment,  
that poisonous cloud could be over  
us like the Atomic mushroom. Our lives,  
our farms, our animals, our environment,  
are all in danger. I feel that its better  
to haul hazardous materials by truck,  
than by railroad, where accidental ex-  
posure is not so widespread.

Also, I'm against Eminent Domain  
for Private Gain. Farm land is precious!  
Once the topsoil has been removed or used  
for something other than crops, it cannot  
be reclaimed to grow food.

Sincerely,  
Loreen Crowley
