Transcript:

I am calling in regards to the railroad acquisition by Canadian National, I am terribly, terribly opposed to this for many reasons. The biggest one is for the emergency vehicles being blocked. I fear that the response times are going to be absolutely terrible, I have three small children and that is probably my biggest factor on this. Also the hazardous materials that will be transported through our communities. The potential cost to me as a home, to me as a taxpayer for the potential construction that's gonna be needed at all these different intersections where these railways cross. the congestion that will go through our neighborhood, it's just gonna be awful so please do not let this go through. I can be reached at 815-462-6936. Thank you
