ATTN: Docket # FD-35952

Date 4/28/17

Ken Blodgett
Surface Transportation Board
Docket # FD 35952
395 E Street SW
Washington, D.C. 20423-0001
Mr. Blodgett,

After reviewing the available information about the proposed Great Lakes Basin (GLB) rail project, it is my opinion that the proposed GLB project has failed to sufficiently provide documentation that supports public convenience and necessity. For the following reasons I respectfully request that the STB cease any further action on this project.

Your taking the farm land,
my well and water I'm
Really worried about
Septic tank
We have NO Reason for
it

And the NOISE
It's so quiet out here. Love to keep it that
So ~~don't~~ Don't want a train in my backyard way.
The above provided information is what led me to the conclusion that the proposed GLB project is inconsistent with the public convenience and necessity. It was insufficiently vetted before starting the approval process. I respectfully request that the STB takes no action on this project.
