Transcript:

Phone No: 847-381-5891. I would like to indicate that I am definitely against the CN Railroad purchase of the Elgin Railroad in the area. We just strongly feel that it will destroy the community with no opportunity for a town to be able to re-establish itself when they ruin it. It is unfortunate that the situation is dire. With all the things going on in the world today, the last thing one should do would be to close out a town, and there are many, many mitigation factors. There is no reason why some foreign company should be allowed to go ahead and do something to ruin the region without being responsible for fixing all of the problems that occur, which are environmental, which relate to safety, and relate to destroying the potential, well, the continuing of retail. We are definitely against the purchase and feel that it would be a terrible thing to happen and we are hopeful that you will evaluate the situation carefully. My email address is sb@bryantassociates.com

Thank you.
