I am definitely I favor of cutting down the traffic in our local area, of the train traffic in our local area, due to the fact that from my particular position it takes a, about 15 minutes to get to the main hospital, the one located in Park Ridge, for emergency services which is where all ambulances will take us automatically. However, if a train is involved in the area, naturally it can last as long as 20 minutes or half an hour for a train like that to go by so that we can get to the emergency room. It's one of my major concerns while living in the incorporated area of Des Plaines and the west of the actual train tracks and we're far west of the hospital/trama center. Thank you very much. Bye
