Dear Mr. Navecky,

I am very much against your building the GLBT Railroad. It seems you are purposely ruining some of this country's finest means for crops to feed it's people. Not only would you be dividing this country's precious farm land but there would be a huge risk of major environmental problems.

You have made many promises - but once the railroad has been built, I really don't think you even intend to respect any of them. Just as many situations in this country, by then the damage will be done. You may be left with a few dollars in your pockets but the farmer and his family will bear the consequences of your brash plan.....and as before, this country will have to suffer the results of the greed of a few without a code of honor or common sense.

Sincerely,

Shirley Peterson
