ATTN: Docket # FD-35952

Date 4-28-2017

Ken Blodgett
Surface Transportation Board
Docket # FD-35952
395 E Street SW
Washington, D.C. 20423-0001
Mr. Blodgett.

After reviewing the available information about the proposed Great Lakes Basin (GLB) rail project, it is my opinion that the proposed GLB project has failed to sufficiently provide documentation that supports public convenience and necessity. For the following reasons I respectfully request that the STB cease any further action on this project.

This would impact farm land, wet lands, quality of air,
Noise, businesses, wells being contaminated, plants,
Animals (Farm, pets, + wild) property values
First responders getting through, closing roads. Impact
on kids going to + from schools. Getting to work, Dr,
Hospitals, shopping. We feel this should Not
go forward in any community

The above provided information is what led me to the conclusion that the proposed GLB project is inconsistent with the public convenience and necessity. It was insufficiently vetted before starting the approval process. I respectfully request that the STB takes "no action" on this project.
