Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

This rail system w/ hinder the entire Barrington Community! It will separate the village in 2. I live directly next to one of the tracks just off of Lake Cook and Raymond Street. If this trail system occurs and there is an emergency at our house we will be completely separated from the hospital or firehouse.

Having 20-25 trains go by in one day will completely disrupt the entire community. I hope that you will keep our concerns in mind & make other plans for the Canadian/Asian ~~railroad~~ railroad.
