

JOIN STATE REP. KATE CLOONEN IN OPPOSING THE GREAT LAKES BASIN RAILROAD

The Great Lakes Basin Railroad has proposed a 270-mile freight line that would run from Wisconsin through Northern Indiana, directly through our communities and the heart of Grundy and Kankakee counties. Kankakee County alone could lose 16,000 acres of valuable farmland through eminent domain, and nearby residents and farmers would be negatively impacted by spillage, air quality, noise pollution and safety concerns caused by traffic delays and dangerous rail crossings. We stand with Rep. Cloonen, who believes the concerns of local residents and our communities must come before corporate CEOs and their multi-billion-dollar interests. **We, the undersigned, stand with State Rep. Kate Cloonen in opposing the Great Lakes Basin Railroad.**

JOIN STATE REP. KATE CLOONEN IN OPPOSING THE GREAT LAKES BASIN RAILROAD

The Great Lakes Basin Railroad has proposed a 270-mile freight line that would run from Wisconsin through Northern Indiana, directly through our communities and the heart of Grundy and Kankakee counties. Kankakee County alone could lose 16,000 acres of valuable farmland through eminent domain, and nearby residents and farmers would be negatively impacted by spillage, air quality, noise pollution and safety concerns caused by traffic delays and dangerous rail crossings. We stand with Rep. Cloonen, who believes the concerns of local residents and our communities must come before corporate CEOs and their multi-billion-dollar interests. **We, the undersigned, stand with State Rep. Kate Cloonen in opposing the Great Lakes Basin Railroad.**
