The Embankment is  
history and open space  
and can support bikes,  
pedestrian, and be  
better rail transportation  
to destroy and it would  
rob the City of these  
individual resources.

I reside in historic  
Park Neighborhood. The history  
of Jersey City is based on the  
rail-lines. The Harsimus embankment  
gives us a sense of place.  
Do not let this historic  
structure be destroyed!  
The APE is too narrow.  
It should be expanded to all  
historic districts in JC

We oppose removal of the historic  
Embankment - it is part of Jersey  
City's rich history. It also provides  
a place for trees and plants to grow  
- unusual in a densely populated city.

Don't put up more condos more  
strain on the sewer systems  
more cement. Do leave the  
Embankment's eco-system  
that helps the environment.

Thank you.

The Embankment will not be  
as an indispensable buffer

In addition it will be  
an important factor for  
social and environmental  
health of this beautiful comm..

THE DESTRUCTION OF THE  
EMBANKMENT WOULD HAVE A  
SIGNIFICANT NEGATIVE IMPACT ON  
A NEIGHBORHOOD DEEPLY INVESTED  
IN PRESERVING THE HISTORIC ROOTS OF  
JERSEY CITY. IN ADDITION, THE LOSS  
OF CRITICAL GREEN SPACE MEANS HUGE  
NEGATIVE IMPACTS ON AIR QUALITY  
AND WOULD  
SUBJECT IT TO  
SEVERE OVERCROWDING  
AND POLLUTION.
