

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

9/17/08

~~8/28/08~~

The backup from the railway crossings in Barrington, Illinois are already overwhelming & quite frankly dangerous. I have seen ambulances waiting for greater than 15 minutes. Would you want you love one in that ambulance? The impact of adding more trains & more delays is too great for the area & the residents to bear.

[illegible]

Joliet
