Message:

Please do not allow the acquisition of EJ&E by CN! This acquisition would greatly decrease the quality of life for residents of Barrington and the surrounding communities. The amount of increased rail traffic would logjam our already very heavily traveled downtown area and pose a safety threat to those needing prompt medical assistance. Our children and students that presently walk through town to get to school would also be at risk. We need to stop this acquisition or at the very minimum, greatly restrict the amount of rail traffic under CN. This would adversely effect so many neighborhoods all through our town.

Thank you.
