

July 10, 2016

Dave Navecky,

The Enbridge Pipeline Co. owns an aging 1950's era natural gas pipeline that passes along the northern county lines of DeKalb & Ogle, which is only a few hundred feet from the proposed G&B route.

The construction and operation of the railroad, so close to the gas pipeline, would bring yet another threat to area residents' safety and peace of mind.

The rail path and pipeline are both very close to our house and well, and those of many of our neighbors. We should not have to live with this!

Please deny this unneeded & unwanted project. It is a threat to the environment and to rural communities.

Sincerely,
Karen Gill
