Yes, my name is Vincent Smith, my address is 850 Ewing Avenue in Joliet. I see that you had a meeting in Joliet on January 10th which I was not able to attend but I still wanted to voice my concern with my address being 850 Ewing, it is a small street, it is kind of quiet until the trains shut down Joliet, basically the downtown, then my street becomes the alternate route, and right now we have learned to live with the amount of traffic that comes through when the trains actually have everything blocked off. My concern is with adding all these extra trains, or whatever, the impact that it would have coming through my neighborhood now. I don't know weather it would cause property value to go down, I don't know, but I know we have enough traffic as it is coming through when a train actually shuts down Joliet. So, if anyone could give me some information of how I can write something and who I should write it to concerning my concerns. Please write me with this information. You can send it to Vincent Smith, Senior at 850 Ewing Avenue, Joliet, IL. 60432. Thank you for your time, we would appreciate the information. Have a good day and goodbye.
