Finance Docket NO 34797

To whom it may concern,

I heartily object
to the "Trash Train"
which will involve
400 Trash trucks
being driven

Through my neighborhood
is North Woburn, MA.

TO the highly contaminated
Olin Chemical site in

Wilmington. Solid waste

The whole region will

be affected! My
neighborhood is highly

vulnerable to the

hazards in the streets

and the event of a

liquid or solid waste

would put us in a

Chernobyl situation!!!

The immense grinding

noise and the odor

and pests will

be a repeat

(3.)

Marjorie Walker

of what happened in
East Woburn in our
not very distant past.
I cannot imagine
The odiferous smells
and the toxicity in
the air waves

Please, please do
not bring this
negativity into my
neighborhood impact-
ing me, my neighbors,
our pets and the very
air we breathe.

Sincerely Yours
Marjorie Walker
