Transcript:

I am 100% opposed to Canadian Railway purchasing E&J, EJ&E. There's just no way we can allow that to happen with the train traffic increase from 12 to 42. I just wouldn't be able to my office, I'd have to move out of the town, and I think all my neighbors share the same view. We do not want that purchase. We do not want increased rails in Plainfield. Thank you
