Subject: DM&E National Register Eligibility Recommendations - FINAL DUE DATE
JULY 27

Hello Everyone:

A) Deadline for Input of Unevaluated Sites: Monday, July 27th

Please be advised that STB will need any National Register eligibility recommendations for the sites listed below by this coming Monday, July 27. Thus far, we have only received formal comments on 7 of the 36 unevaluated sites for which DM&E provided access and payment. Those comments have come from the Upper Sioux Tribe. We have received no formal recommendations from tribes regarding sites visited during weeks 2-4. We do have monitor notes from the Northern Cheyenne regarding some of the remaining sites. However, these notes do not indicate if the listed sites are eligible using the National Register Criteria.
