Transcript:

I would just like to register my position on the proposed purchase of the EJ&E by CN. I think any reasonable study would reveal that, should we accomplish this purchase, the freight traffic will cause inordinate congestion in the Village of Barrington and it results in a safety issue and an environmental issue and I think that if the Canadian National wants to persue this they should do the reasonable thing and provide Barrington with at least three crucial grade seperations and that should be in writing and enforcable as a condition of purchase. Thank you very much, appreciate your help and have a good day.
