Washington, DC 20423

Attn: Office of Env. Analysis
Docket No. 30186

As a great grandmother, a grandmother, a mother
and someone who cares about the world that we live in
and pass on to others please say "No" to the Tongue
River Railroad. Coal is being replaced by renewable
energy. (A grandson was just laid off by The coal
Consolidated mine near Canonsburg, PA.) It seems inconceivable
to permit this railroad for temporary gain for a
few individuals and hardship for the ranchers
along the line.
