I live between the Northwest Hwy crossing and the 59 crossing, I can feel the trains when they go by especially at Night.

My daughter will have to cross the tracks to get to High School and when she walks to the pool/park.

We cross the tracks many times a day, both going to Jewel & shopping downtown & shopping in Lake Zurich.

As close as we are to the tracks the smog created by the idling cars and trucks affect us negatively.

If we must have this the CN should be required to ~~in~~ lower the tracks under the town.

→ Please help us! CN has a sweet business proposition, they should/can afford to give back to the communities that they negatively impact.

Thank you for your attention to this matter.
