Dear Board

~~July 13th~~ ~~JUNE 15~~ July 15th

It has come to my attention that RAILER organization's president has submitted an alternative route for your consideration.

It is based upon utilizing abandoned and working tracks which seem to be less intrusive than Mr. Patton's proposal. Although we would like the entire project be denied, this proposal from RAILER could be workable as well as the present C.R.A.T.E. already in service. No one really wants or needs Mr. Patton's Railroad. Please do not allow one person to destroy as many other ways of life.

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his/her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
