Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

CN | EJ&E

Environmental Impact Statement

Date: 8/27/08

Comments must be submitted by September 30, 2008.

TO whom it may concern,

This proposed Canadian National Railway Company is not making a smart decision. By allowing the trains to pass through Barrington will not make life very easy for Barrington citizens. It will cause more traffic and hurt the environment. Pollution will become very bad around here. The air will be filthy and people will not want to walk around Barrington anymore because of the dirty air. Barrington will lose customers and become just another dirty town. Also, school will become a problem because all the kids will be late because of the train hold up. Emergency vehicles will have to wait at stop lights and wont be able to get through. Also, our trains now have become a popular way of "suicide". Three people have been killed by trains and we certainly dont need it to go up anymore.

YOUR INPUT IS IMPORTANT!
