I am a recent commuter? having this happen now will change the way I can get to work - With this disruption it will have a direct impact on everything I do on a daily basis. My family life will change because of all the time I will spend waiting for trains to pass. I was late for an important meeting last business due to a single freight train that stopped all the commuter trains. Not to belabor the point, but our home values will plummet because no one will want to live in this community - We are already struggling - this will only make it worse.
