Phone number is 815-463-9135. Calling in regards to an opposition in regards to the railroad that's coming through. I've been a resident for almost 10 years. I understand it's growth, but growth like this would cripple where I'm located based on the south side of town, just doing local traveling and business. My kids go to school north of the tracks, that there's emergencies, would not be able to get anywhere past those, expressway, anything. 100% opposed to this. I'd like to attend any meetings that you have. You can call me again at 815-463-9135. Thank you.
