

Sept 22, 2008

Dear Mrs. Johnson-Ball-

I want to voice my opposition to the CN acquisition of the E.T. & E. Railroad.

Although I am not in the country at this time (my mother is taking dictation) I want to take this opportunity to express my opinion.

I know the importance of emergency services to the well being of a community. I was a Police Explorer for 4 years and saw first hand the positive impact that quick response time has on a life or death situation. If the CN takes control of the E.T. & E. and clog the crossings with 20+ trains a day, management of emergencies will be in jeopardy. It will be a disaster for those who need help, to have to wait for a train to pass before they can get that help.

Please vote "no" on the CN acquisition
