Transcript:

I wanted to note that I'm completely opposed to the Canadian National purchasing tracks and the increase on a number of trains that will go from 18 to 42. I'm concerned for several reasons. One, is the amount of traffic. Two, is the noise. But most importantly, we have been rezoned and my children and children in our neighborhood, Tall Grass and White Eagle, will be going to Wabanzi Valley High School. Those tracks create an issue as it is right now. In some places you can only put as much as two cars before they have to turn left or right. I think kids will try to race trains, they will not be careful, there is a ton of risk associated with those tracks without appropriate overpasses out in place in order to manage this more appropriately. So there is a lot of risk, a lot of danger, I worry about kids lives quite honestly, and just the noise, and all the traffic issues that go along with that will be negative in my opinion. Feel free to call me at 630-904-3038 if you need any additional comments. Thank you
