Environmental Impact Statement

Date: August 27, 2008

Comments must be submitted by September 30, 2008.

This is unheard of to have more railway to go through Barrington We are crowded with trains going there now It would take us more time to get one or two blocks - as it is now we are awaken every night by trains going through blowing their horns. Do not let this happen to our small town. We have many children who have to cross the tracks which would put them in danger - it should not happen - so please hear us when we say we do not want this to happen.
