Transcript:

I would just like to urge the board to approve the CN purchase of EJ&E. As a long time South Holland resident I have dealt with the trains for many many years and they just keep getting worse, and anything to alleviate the problem, I am all for it. My daily life is interrupted every day by at least 2 or 3 trains, while I sit and wait for them travelling through the community. I think this is an excellent plan and an excellent way to alleviate some of the problem and I would wholeheartedly back it, thank you.
